

PIAC AIRPORT TRANSPORT GUIDELINES

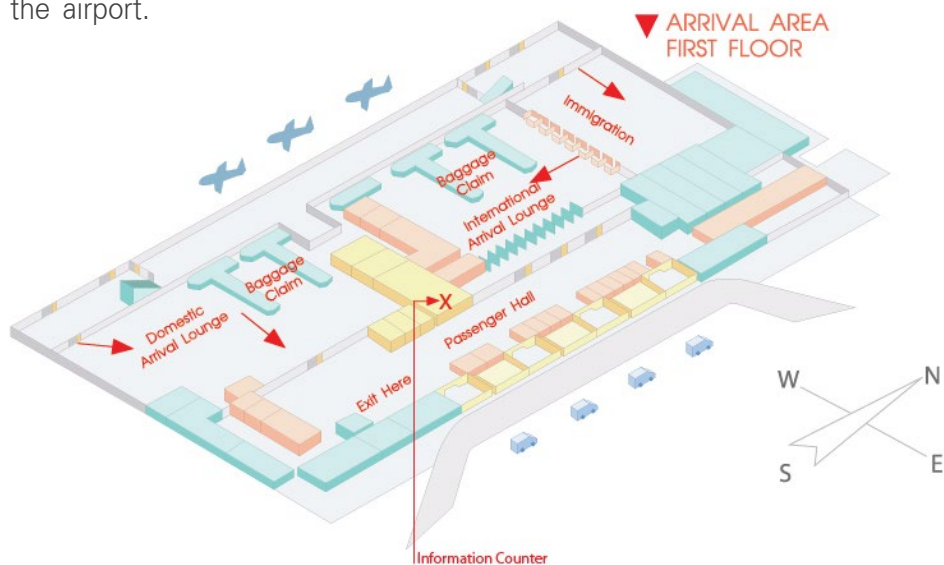

Clients Arriving At Phuket Airport

If you are arriving by plane at Phuket Airport and you have a confirmed transport booking with either Phuket International Hospital or PIAC, please follow these guidelines to meet up with our concierge and transport services.

The airport has two arrival sections, a domestic and international. Both are located on the first floor (sometimes referred to as the ground floor). If you are an international passenger, your airline staff will guide you to proceed through immigration to baggage claim and then through customs into the northern end of the airport arrival hall. If you are a domestic arrival, you will proceed straight to baggage claim and enter the arrival hall at the southern end.

Once in the arrival hall, ignore all taxi and transport touts and make your way to the Information Counter located in the middle of the airport building. (see map for detailed information).

If you are unable to locate our staff, your flight has been significantly delayed or you are concerned about your transport arrangements, please call our Concierge staff on 098-051-5175 (+66 98-051-5175 if outside Thailand) or our public relations department on 076 249400 extension 1336. Public phones are available within the airport.
